- Taking Responsibility for your Retirement

### About the Author

Don is from a working-class family in the beautiful town of Goderich, Ontario. He was able to translate an absolute lack of exceptionalism in high school into a career that included graduating from the Ivey School of Business, obtained his CPA/CA with PriceWaterhouse and worked for thirty years for the 3M Company in the areas of income tax and pensions. He also owns a company that published the Canadian Tax Planners Newsletter and the Canadian Financial Planner. These newsletters provided tax and financial information to many of the country's largest businesses and successful entrepreneurs for over three decades.
